

Meeting minutes: 15 minutes

Topic of Conversation:

For the next sprint we each team member will continue working on their dedicated part. In the past sprint we were able to complete a prototype version of the CPU monitor. Next will be to start incorporating the different components into the hardware monitor, not just the CPU. The goal is to start creating small prototypes of the RAM, GPU, and other components. We will also work on improving the compatibility with most operating systems(prioritize windows 11 and MacOS)

People in the meeting:

Santiago Defelice - Team Leader - Structure and Starter code CPU

Justin Wissart - GPU - Fan speed & clock

Daniel Adriazola - GPU - temp & load percentage

Jonathan Gonzalez - Storage - usage percentage & read/write

Louis Flores RAM - RAM utilization & speed / Debugging
