

Meeting minutes: 15 minutes

Topic of Conversation:

Today we held a standup after sprint planning to answer any questions and review what features have been worked on. Performance of the application on windows has been smooth while linux support is lacking (Louis is working on this). Everyone agreed on a fair workload and to lead their feature branches and program alongside team members. A point was brought up to have small prototypes by the end of this sprint led by Santiago.

People in the meeting:

Santiago Defelice - Team Leader - Structure and Starter code CPU

Justin Wissart - GPU - Fan speed & clock

Daniel Adriazola - GPU - temp & load percentage

Jonathan Gonzalez - Storage - usage percentage & read/write

Louis Flores RAM - RAM utilization & speed / Debugging
